

Pipes machine mod. OT 14

MAIN FEATURES :

- | | | |
|----------------------------------|--------|------------|
| - motor | HP | : 4,5 |
| - production speed | m / 1' | : 8 |
| - set of tooling for machining : | | |
| - steel pipes Ø | mm | : 14 x 1.2 |
| - aluminium pipes Ø | mm | : 14 x 1.5 |

DESCRIPTION :

Frame :

- welded steel frame & large heavy bed to ensure a perfect stability
- protection housing

Tooling :

- hard ground and rectified steel rolls

Mandrel :

- mounted on large watertight lubricated bearings

Electrical plant :

- motor's thermal protection
- EC conformity

Support guide :

- Teflon coated for easy pipe's introduction

OPTIONAL :

- . Pneumatic **pliers** :

- twin safety command
- n2 handlings + hanging up hook
